WHY
CHOOSE
ARISTON
GAS
HOBS?

WHY CHOOSE ARISTON GAS HOBS?

Ariston Gas Hobs offer you superior safety compliance & assurance.

1. 100% ignition rate ensures that flames will always come on once burner is ignited, **preventing gas leak and potential fire or explosion risk.**
2. High quality Flame Failure Device (FFD) which guarantees extensive usage of more than 10,000 times and **safeguards against gas leak.**
3. Thickened stainless steel material to prevent liquid leakage into hob which helps prolong lifespan and durability of hob for **longer usage and minimized replacement.**
4. Durable valve that is able to withstand wide range of temperature, with guaranteed usage of more than 20,000 times, meaning **reduced needs for maintenance.**
5. Our proprietary test ensures hob components are non combustible even in the event of a fire, preventing fire from spreading out thus **enhancing user safety and protection.**

EMPOWER YOURSELF IN THE KITCHEN

Create culinary magic in your kitchen with our high efficiency 4.5kW burners. Enhanced with a safety valve to prevent accidental gas leakage, you have one thing less to worry about while cooking. Featuring SCHOTT glass cooktop, multi-cut size and extra stability for wok cooking, this versatile design will certainly make your cooking experience a delightful one.

SAFETY

Engineered with a safety valve that cuts off the gas supply to prevent gas leakage when the flame is accidentally blown out.

SEALED TOP SHEET

Ariston gas hobs are with sealed top sheet to prevent spillage into the gas hob, ensuring safety and easy maintenance of appliance.

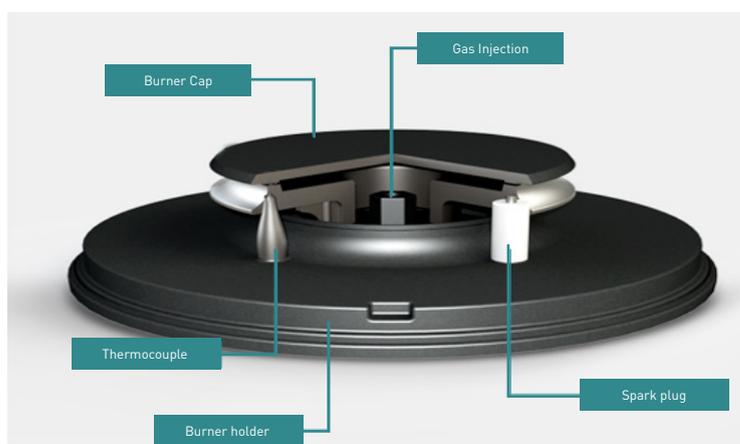

FIXED BRASS CONNECTOR GAS HOSE

The gas hose is firmly secured via a high quality and durable brass connector to prevent accidental damage.

GAS SECURITY VALVE

Ariston gas hobs are engineered with gas security valve which shuts off the gas supply 30 seconds after the flame has been cut off. It prevents gas leakage in cases such as when the wind extinguishes the flame or when the burner has not been properly turned off.

DURABILITY

An elegant durable glass cooktop that is able to withstand time, high heat and hard knocks. Not only that, it also makes cleaning exceptionally easy!

8MM SCHOTT GLASS

An environmental friendly innovation, this high quality SCHOTT glass cooktop is resistant to hard knocks and high temperature. Cleaning is exceptionally easy.

CAST IRON WOK ADAPTOR AND PAN SUPPORT

To facilitate various styles of cooking, the cast iron wok adaptor and pan support provide flexibility to accommodate a wider range of cooking utensils.

PERFORMANCE

Our powerful gas hobs are designed with high heat efficiency, enabling even heat distribution so you can be assured a superior cooking result.

4.5KW HIGH POWER BRASS BURNER

Our Gas Hobs are engineered with powerful 4.5kW brass burner that provides heat retention and distributes heat more evenly to ensure superior cooking results. Due to its high melting point, the brass burners are able to withstand high temperature up to 980°C, making them resistant to deformation. Additionally, our burners emit less CO, helping you contribute to environmental protection.

INDEPENDENT SIMMERING DOUBLE RING BURNER

Smart design that looks good and functions even better. The double ring burner allows better heat distribution and more precise control of inner and outer flames. Its independent simmer flame control was created to suit every cooking style.

FLEXIBILITY

Our multi cut-out design not only allows you to custom your ideal hob size, they are also coupled with steadfast support for various cookware.

MULTI CUT-OUT SIZE

Ariston hobs are designed to integrate effortlessly into your life. You may use our multi cut-out to freely adjust the width and height to fit the existing hob cut-out in your kitchen. Now, you're part of the Ariston family.

UNIVERSAL PAN SUPPORT

Creating a secure and safe platform for cookware of all sizes such as small pans or espresso makers reducing chances of dangerous spills.
