

ASL9FLTX

90cm Compact Hood
EAN Code: 4897068762256

The aluminum filter should be washed by dishwasher or by hands every 30 days. Please make sure the filter is dry before you assemble them back.

The active carbon filters purify the air that is replaced in the environment. The filters are not washable nor reusable and must be replaced every 4 months at most. The saturation of the active carbon filter depends on the frequency of use of the appliance, the type of cooking and the regularity of cleaning the aluminum filters.
